This article provides an extensive overview of common German verbs paired with prepositions, complete with explanations, examples, and tips to help learners navigate this complex aspect of German grammar.

Introduction to German Verbs with Prepositions

German verbs often require specific prepositions to convey particular meanings or grammatical cases. Unlike English, where prepositions are often optional or flexible, German prepositions are tightly linked to the verb and the case of the noun or pronoun that follows.

Why are prepositions important in German?

Prepositions determine the case of the noun or pronoun they govern, which can be nominative, accusative, dative, or genitive. For example, the verb "denken" (to think) with "an" (about) takes the accusative case:

- Ich denke an den Lehrer. (I am thinking about the teacher.)
